Objective:

Results-driven computer science graduate with a passion for data analysis seeking a challenging position as a data scientist. Dedicated to leveraging technical expertise and analytical skills to derive meaningful insights and drive business growth.

Education:

Master of Science in Computer Science Data Analytics Institute, Smalltown, USA Graduated: December 2023

SKILLS:

- Proficient in R, Python, and SQL
- Experience with data visualization tools such as Tableau and matplotlib
- Knowledge of machine learning algorithms and techniques
- Strong statistical analysis skills
- Excellent problem-solving and critical thinking abilities

Experience:

Data Analyst Intern DataTech Solutions, Smalltown, USA January 2023 - May 2023

- Analyzed large datasets to identify trends and patterns using Python and R
- Created data visualizations and reports to communicate insights to stakeholders
- Collaborated with cross-functional teams to develop data-driven strategies for improving business processes

PROJECTS:

- Predictive Maintenance Model: Developed a predictive maintenance model using machine learning algorithms to anticipate equipment failures and minimize downtime.

CERTIFICATIONS:

- Data Science Certification from Coursera
